Introduction and Proposed Goals and Targets on Sustainable Development for the Post 2015 Development Agenda

Poverty eradication is the greatest global challenge facing the world today and an indispensable requirement for sustainable development. We are therefore committed to freeing humanity from poverty and hunger as a matter of urgency.

We recognize that poverty eradication, changing unsustainable and promoting sustainable patterns of consumption and production and protecting and managing the natural resource base of economic and social development are the overarching objectives of and essential requirements for sustainable development.

We reaffirm our commitment to fully implement the Rio Declaration on Environment and Development, Agenda 21, the Programme for the Further Implementation of Agenda 21, the World Summit Outcome, and the International Plan of Action for the Implementation of United Nations Sustainable Development Strategies.
List of Proposed Sustainable Development Goals to be attained by 2030

1. End poverty in all its forms everywhere

2. End hunger, achieve food security and adequate nutrition for all, and promote sustainable agriculture

3. Attain healthy life for all at all ages

4. Provide equitable and inclusive quality education and life-long learning opportunities for all

5. Attain gender equality, empower women and girls everywhere

6. Secure water and sanitation for all for a sustainable world

7. Ensure access to affordable, sustainable, and reliable modern energy services for all

8. Promote strong, inclusive and sustainable economic growth and decent work for all

9. Promote sustainable industrialization

10. Reduce inequality within and among countries
10. Reduce inequality within and among countries

11. Build inclusive, safe and sustainable cities and human settlements

12. Promote sustainable consumption and production patterns

13. Promote actions at all levels to address climate change

14. Attain conservation and sustainable use of marine resources, oceans and seas

15. Protect and restore terrestrial ecosystems and halt all biodiversity loss

16. Achieve peaceful and inclusive societies, rule of law, effective and capable institutions

17. Strengthen and enhance the means of implementation and global partnership for sustainable development
Challenges of a silo effect:

Environment only 25% of coverage, and concentrated in the “environmental goals”

Economic issues concentrated in the economic goals, with relevance to poverty and food

Social issues concentrated in health, education, gender, and peace
New target 5.12: **Ensure by 2020 full inclusion of women, including local and pastoralist women, in decision making on water issues, and aiming at gender parity (with min 30%) in water management boards**
2- Integrating Environment into Gender Goal (5)

New target 5.13: by 2030 have eliminated and substituted with safe alternatives, the use of all chemicals with are carcinogenic, repro-toxic, mutagenic and hormone disrupting, with specific focus on eliminating exposure of women
1- MOI targets for Gender Goal (5)

Add to goal 17 and/or 5: Establish (a) global gender facility and other regional or national gender funds by 2016 to support the implementation of gender related goals and targets of the SDG agenda, including criteria to ensure not less than x% reaches the local implementation level.
2- MOI targets for Gender Goal (5)

Add to goal 17 and/or 5: **Implement by 2020 gender-budgeting in public financial management**, to ensure that entire public finance management system is gender responsive from budget allocation, to revenue generation/tax collection to financial audits.
3- MOI targets for Gender Goal (5)

Add to goal 17 and/or 5: A certain amount (x%) of ODA should go to implementation of the gender and women’s empowerment standalone goal and other gender and women-related targets in other goals as of 2016
4- MOI targets for Gender Goal (5)

Add to goal 17 and/or 5: As off 2015 ensure financial and other support for women’s and feminists groups and organisations to contribute to achieving gender equality and women and girls’ human rights
5- MOI targets for Gender Goal (5)

**Add** to goal 17 and/or 5: **Implement by 2020 full Social-Gender-Environmental assessments, monitoring and evaluation - prior, throughout and afterwards – on the impact of decision making and take corrective action to prevent discriminatory and other harmful impacts**
Gender and Energy (Goal 7)

• Replace in target 7.4 "cookstoves" (even though we like it, it is too limiting)

• With...sustainable, clean and efficient lighting and cooking technologies for household and local, remote and mobile communities”
2. Gender and Energy Goal 7

• Add to existing target 7.5 Goal 7, “.. phasing out fossil fuel subsidies after having increased access to affordable and clean energy for households and local communities

• ...and when curbing charcoal illicit trade make sure women are not without energy
1- Gender and Land Rights

Add to Goal 1: target 1.5

• by 2030 ensure development opportunities for all men and women, including secure rights to own individual and collective land, property and other productive resources, and access to financial services, with particular focus on the poor, the most marginalized and people in vulnerable situations
2. Gender and Land Rights

Add to target 5.7.

• Ensure women’s equal access to, control and ownership of assets and natural and other productive resources, **secure rights to land, property and inheritance**, as well as non-discriminatory access to essential services and infrastructure, including financial services and ICT)
1- Gender and Chemicals

Add to existing target 2.5 of Goal 2 on Food: “by 2030, develop food systems that are more productive, sustainable, resilient and efficient, and minimize adverse human and environmental impacts without compromising food and nutrition security, including by eliminating use of highly hazardous pesticides.”
2- Gender and Chemicals

Add to existing target 3.9 of Goal 3 on health; “by 2030 eliminate preventable increase by x% the number of deaths and illnesses from chemicals, indoor and outdoor air pollution and other forms of environmental degradation, with a focus on children, women and other groups at higher risk.
3- Gender and Chemicals

• **Add** new MOI target to Goal 3 Health: **3.10**
  Generate and provide global access to a standard data set for information on cancer, hormone (endocrine) disruption, reproductive toxicity, and other health risks of all substances used in industrial processes and agriculture by 2020
4- Gender and Chemicals

• Add to existing target 12.4, Goal 12 on SCP: promote **ensure** sound management of chemicals and hazardous waste **and of their differentiated impacts in women and men health by 2020 and beyond** in accordance with agreed international frameworks and by 2030 significantly reducing the releases of chemicals and hazardous wastes **to the environment** air, water and soil **and ensure substitution with safer alternatives**
UNEA High Level Segment Dialogue on SDGs and Post 2015 Agenda, including SCP

- Proposed focus on 7 concrete issues of relevance to an integrated approach to sustainable development:
  
  **Leave no one behind**
  - Poverty and sustainable rural economies
  - Poverty as a multi-dimensional issue: focus on universal coverage of sustainably-derived water and energy

  **Live within safe operating space**
  - Employment and SCP
  - Sustainable consumption
  - Healthy and clean environments

  **Build assets for the future**
  - Restoration of natural assets
  - Long-lasting, low-carbon, resilient infrastructure, buildings and products
