5) **Process for Nominations, Selection and Ending of Facilitator position**

The WMG aims at a balanced distribution of co-facilitators as much as possible, bringing together organizations that have expertise in relevant international and regional policy processes, thematic debates as well as organizational skills.

An organization nominates a person(s) for the function of co-facilitator and this person(s) has the responsibility of fulfilling the relevant ToR; each nominee will indicate if it is global, regional or global and regional, along with their organization’s thematic focus area. If an organization is not complying with the ToR, the co-facilitators will decide if the organization needs to step down. It is up to the group to decide if they call for special elections or wait to the next period of elections.

The WMG can elect 2 official co-facilitators, and 2 alternates – who should also get access to all relevant UNEP/UNE documents - out of the nominated organisations. Ideally, one of them will be based in Nairobi and capable of following intersessional meetings.

9 Proposed is a slate nomination and election process that will produce balance between regions, themes and types of organizations.
In total, we ideally strive to have 2 co-facilitators, representing different regions and themes.

Among the co-facilitators, there should be:

- Thematic balance, addressing social, environmental and economic pillars
- Institutional and leadership continuity (co-facilitators may be re-elected for another term, up to 2 consecutive terms). If there are no candidates that full-fill the criteria, former co-facilitators can run for the position again even if after 2 consecutive terms.
